

Who Are You? What do you want? Tell us about you and your views ...

We're always looking for ways in which we can provide you with the type of information YOU really want to read about TB and TB Alert. To help us with this, if you haven't done so already, we'd be grateful if you could spend a minute or two completing this short questionnaire and post it to TB Alert, FREEPOST LON 12815, LONDON, NW10 1YS. Thank you to everyone who has already responded.

1. Why do you support TB Alert? (tick any relevant boxes)

- Someone I know has had TB or been concerned about TB
- I work in health related field or with people at risk of TB in the UK
- I am a retired health professional
- I have an interest in health in developing countries
- I have an interest in a particular country or project where TB Alert works
- I know someone associated with TB Alert and they got me interested
- Other (please specify) _____

2. Is there anything you particularly like or dislike about the newsletter? If so, let us know here:

3. TB Alert sends out two newsletters a year, 1 or 2 appeals and up to 6 email updates (if we have your email address and permission to use it) a year. We think this is about right to make sure you always know what's going on, but don't get inundated (and we don't spend too much). But what do you think?

- Too much mail Too little information About right

If you think this is too much - either give us a call on 0845 223 5293 OR give us your telephone number here _____ - we want to get it right and we can discuss how to reduce what you personally receive.

If you think this is too little - what other information would you like?

4. If you would like to receive email updates (no more than 6 a year), please write your email address CLEARLY below.

Email: _____

5. Our newsletter is mainly aimed at keeping our donors and volunteers updated with TB Alert's projects and activities (how we raise the money and where we spend it). But it also always contains a page or two specifically aimed at health professionals, giving information about resources, training courses etc. We are considering separating the two so our readers get what is most relevant for them (although some may still get both - eg a TB nurse who is also a donor). How do you feel about this?

Happy as it is - one newsletter for everyone Would prefer separate newsletters
Please comment here about why you gave the answer you did...

QUESTIONS FOR HEALTH PROFESSIONALS AND THOSE WORKING WITH GROUPS AT RISK OF TB

a. Is there any other information TB Alert could produce in addition to our current leaflets to help you raise awareness or inform patients/clients?

b. Is there any other support you would like from TB Alert for you or your patients/clients?

This information is to help us be more efficient and give you more relevant information - nothing you say here will be passed on to other organisations. It would be very helpful if you complete your name and address, but if you would like to make an anonymous comment please feel free to do so. See Freepost address on page 1 for response.
