

## Murambinda life in pictures

Waiting patiently for the outreach clinic taking place under a tree!

Tichreva Manica, 49, has TB and is so weak he cannot walk or work.

His brother (his only family) grows and sells vegetables to support them both.

This is a common form of transport for patients who are too weak to walk but can't afford the bus. Jane Magwenzi's sister pushed her in the wheelbarrow 2km to the hospital where she was diagnosed with TB.

Coffin making is sadly the only booming business in town
